

Readiris PRO 7

NEW!

More than 100 new and improved features!

Converting Documents to Electronic Formats

Readiris Pro is an easy-to-use OCR text recognition software which converts your every-day documents such as letters, magazines, newspapers, scientific documents, photocopies, faxes, etc. into editable text.

Effortlessly you will achieve text recognition perfection. Readiris Pro gives you a wealth of powerful, yet easy-to-use, tools to convert documents into electronic files, including PDF files. The new and improved features and extended capabilities of this latest version of Readiris Pro guarantee you the best possible results – every time!

Superior Accuracy and Speed • NEW •

Simply the fastest OCR in the world. The new OCR engine significantly increases the OCR accuracy and speed. Readiris Pro 7 is 40% more accurate than Readiris Pro 6

PDF Output • NEW •

Extensive PDF support. Paper documents can be saved into PDF format. PDF files are much more compact, searchable and editable

Digital Camera Support • NEW •

Recognizes documents captured with digital cameras

Page Orientation Detection • NEW •

Detects the orientation of the scanned document and automatically rotates the page for optimum OCR recognition

Color Documents • IMPROVED •

Opens documents saved in JPEG, TIFF, BMP,... recognizes documents scanned in color, including text on color backgrounds and saves pictures in color

Foreign language support • IMPROVED •

Recognizes up to 94 languages. Up to 6 user interface languages

Autoformat technology • IMPROVED •

Recreates the original document layout, including graphics and tables. Outputs to wordprocessors and spreadsheets. Generates RTF, HTML, PDF,... output. Sends the result directly to Word, Excel and any AppleScript-savvy application

Automatic table recognition • IMPROVED •

Detects and reads tables, recreates table objects in Excel, in Word and in RTF files. Improved recognition of "ungridded" tables

Multipage documents/batch OCR • NEW •

Supports scanners with sheetfeeder. Also imports multipage TIFF files. Multipage documents can be recognized automatically and saved in a single wordprocessor file. Multipage documents can exceed 100 pages

Adjust image • NEW •

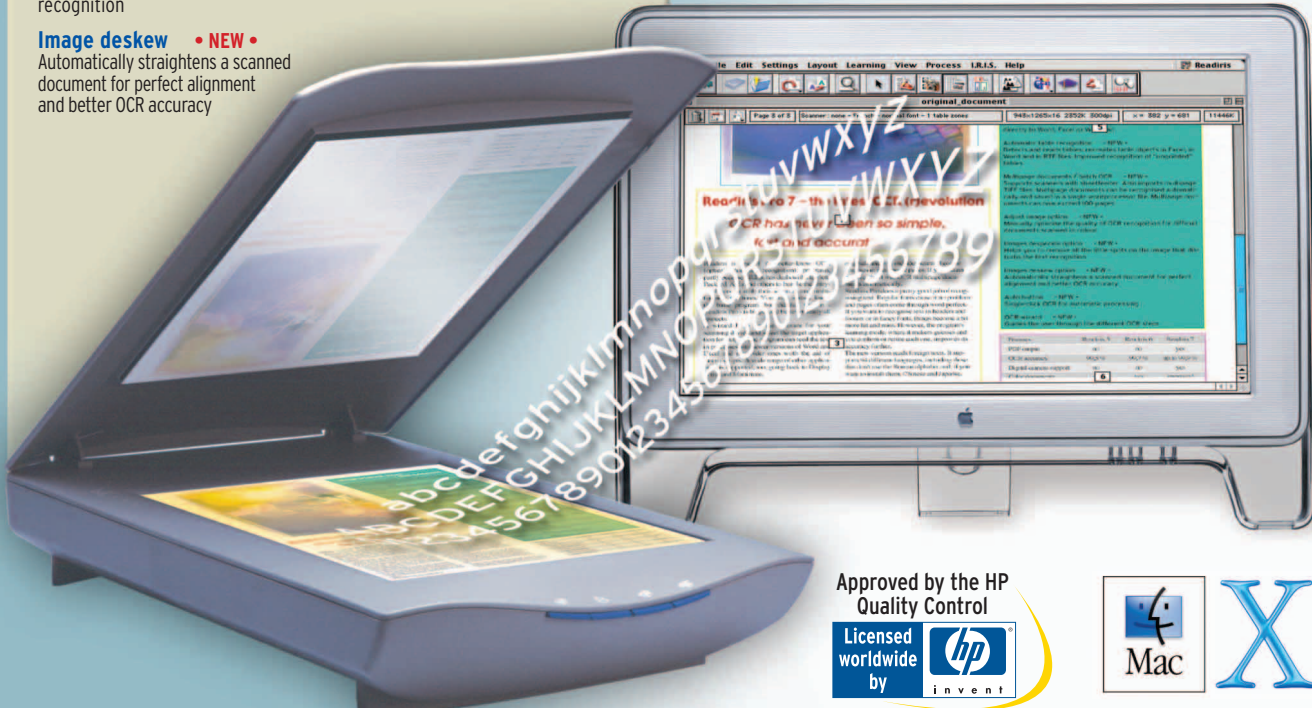

Manually optimize the quality of OCR recognition for difficult documents scanned in color

Image despeckle • NEW •

Helps you to remove all the little spots on the image that disturbs the text recognition

Image deskew • NEW •

Automatically straightens a scanned document for perfect alignment and better OCR accuracy

OCR has never been so fast, simple and accurate!

Readiris PRO 7

The unbeatable combination of accuracy and speed

Text recognition as easy as 1, 2, 3!

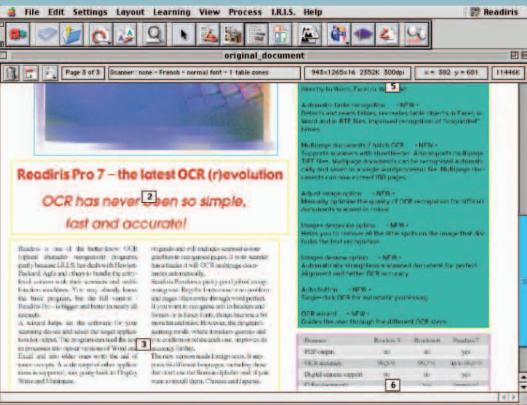

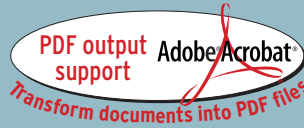

Original document
